

Training on Instrumentation concluded at TFRI, Jabalpur

A five days training course “**Training on Instrumentation**” inaugurated on 19th March, 2018, was concluded on 23rd March, 2018 at Tropical Forest Research Institute, Jabalpur. Certificates were distributed to the participants by Dr. P.B. Meshram, Scientist – G and Group Coordinator Research of the Institute.

Smt. Neelu Singh, Head, NWFP Division and Training Co-ordinator delivered the five days training report. During the training, lectures on a wide range of instruments such as HPLC, HPTLC, ICP-OES, PCR, Gel Electrophoresis, UV-Vis Spectrophotometer, instruments for soil & vegetation analysis, instruments for patho-entomological studies and other important instruments used in routine laboratory works were given by various distinguished scientists and guest resource persons. Hands-on practical demonstrations were given to the learners by expert technical team of TFRI. Exposure visits to NWFP nursery, Plant tissue culture laboratory, Insectary and Forest Museum and Interpretation Centre were also conducted to the participants.

During the feedback session the participants praised and appreciated TFRI for organizing such a useful training course on wide-range of instruments which will definitely help them, especially the young budding scholars in carrying out their research works. They requested TFRI to organize this training programme regularly. They said that this training is of unique kind where a large variety of instruments have been explained and demonstrated under one course.

Dr. P.B. Meshram, Group Coordinator Research of TFRI appreciated the efforts of Training Coordinator and Course Director for successfully organizing the event and also acknowledged the management, all resource persons in enriching the participants with advanced instrumentation techniques. He said that this is the era of instruments and knowledge of advanced instruments is very essential for performing the high quality research. He also assured the participants that their valuable suggestions will be incorporated in the next training programme. He wished the participants to do well in all their future endeavors.

During the event, Officers/Scientists/Resource persons/ committee members were present. The programme ended with vote of thanks by Dr. Hari Om Saxena, Scientist – C and Course Director of this training programme.
